Subject: Update

Dear Friends,

Praise the Lord that our team of three that were left in Lodja on Friday by the airplane did get on today and should be in Kinshasa even as I speak being picked up by protocol.

Also, Dr. Roy Lauter and Dr. Hubert Harriman are to arrive at 7:45 Kinshasa time, too.

Our very good friends and former colleagues, Brian and Gwenda Trapp, have housed, fed and gone the extra mile taking care of our team while in Kinshasa this summer. Praise God for faithful friends like them. May He 'smile' on them for their service to us.

Our truck part came in to Lodja on the plane today only now the truck has a flat which is major. Our spare was stolen between Kinshasa and Kela!. Now our men are working to repair it. They do hope to get off sometime tomorrow coming to Katako. They will have to unload again and reload on the other side of the ferry since our truck is so heavy.

Please pray that it will FINALLY make its first trip here to Katako safely.

Standing the test, Marty
