Subject: Victory

Dear Praying Friends,

Good news! The boat has proceeded up to and through the mouth of the Lubefu river and is to arrive at Kela this afternoon.

Also, the Minister of Defense gave the team his sawmill one more day so now we have more than enough boards for the tabernacle!

However, where the boards are is on the other side of a small bridge. We have had three rains this week and two of them large thunder storms producing a lot of water covering this bridge.

Our prayer is that the team will be able to get them moved on Monday and pray that the rains do not continue right now (it is still suppose to be the dry season!)

Paul is hoping to head toward Kela this afternoon to get our truck off of the barge-it will be driven off by crossing large boards. Not an easy task.

Please continue your prayers for us-you can see that we need them! Nothing is ever dull here spiritually!

Blessings, Marty
